ACADEMIC PROJECTS

Team Tarak Trust | Android app, Website | 2 Years

*   Developed & Managed: Led the creation of an Android app and website for a charitable trust.
*   Bridged the Gap: Connected people in need with those willing to help through features like donation requests, blood donation drives, and trust event notifications.
*   Tech Stack Mastery: Utilized HTML/CSS/JavaScript for front-end, MySQL for database management, and Java for Android development.
*   Scalable Impact: Achieved 20,000+ app downloads, demonstrating effective user engagement and potential for wider reach.
*   Community Engagement: Fostered a strong online presence for the trust, connecting members and fans to its activities and impact.

E-Guru - Online learning Portal | 4 Months

*   Bridging the Education Gap: Developed an online learning portal (E-Guru) to connect students and teachers for virtual classes and course streaming.
*   Tech Savvy Solution: Utilized a diverse tech stack including HTML, CSS, JavaScript, Python, MySQL, Android, and Firebase for a robust and scalable platform.
*   Content & Convenience: Curated a platform offering subject-specific knowledge delivery through interactive online classes and streamable courses.
*   Enhanced Learning: Facilitated student-teacher interaction and access to educational content, catering to the growing demand for online learning.
*   Mobile Accessibility: Developed an Android app for E-Guru, ensuring convenient and flexible learning opportunities for students on the go.

COURSE SPECIALIZATION

*   Enterprise Distributed Systems, Enterprise Application Development, Cloud Technologies, Web UI technologies, Object-oriented programming, Data structures and algorithms.
